EXPERIENCE

Frontend Developer – VitalSwap | 06/2025 – Present – United States

Maintain and enhance four core applications, including the business platform, authentication, support, landing, and checkout pages.

Built the official VitalSwap Hackathon website from the ground up, ensuring modern design and smooth functionality.

Collaborated with cross-functional teams to align technical solutions with business goals and user needs.

Improved platform performance and user experience by optimizing UI components for responsiveness and accessibility.

Supported integration of new features such as virtual bank accounts and international payment flows across Africa and the U.S.

Frontend Developer - Spark Strand | 01/2025 - Present - United Kingdom

Worked on the features of the ongoing sparkstrand project.

Worked on sparkstrand package.

Worked closely with product teams to align technical solutions with business goals and user needs.

Ensured a smooth user experience by resolving issues and optimizing UI components for all devices.

Frontend Developer – Hadeeart Atelier | 05/2025 – 08/2025 – United Kingdom

Revamped the platform UI by migrating from TailwindCSS to Material UI for a modern and scalable design system.

Fixed and optimized backend endpoints, ensuring reliable communication between services.

Rebuilt the mailing system, creating and enhancing templates for transactional and marketing communications.

Enhanced platform performance through code optimization, smooth animations, and third-party integrations.

Collaborated with design teams to improve 3D model presentation and showcase fashion products more interactively.

Frontend Developer - Ivory Finance | 01/2025 - 04/2025 - United States

Developed and maintained core features of Ivory Finance's platform, enhancing user engagement and functionality.

Contributed to the Ivory Finance UI package, improving design consistency and reusability across projects.

Collaborated with product teams to align technical implementations with business objectives and user requirements.

Optimized UI components for performance and accessibility, ensuring a seamless experience across all devices.

UI components for all devices.

Frontend Developer - FoodHutz | 11/2024 - 03/2025 - United Kingdom

Enhanced the current FoodHutz website by implementing interactive and responsive features.

Leading the frontend development of the next version of the platform, focusing on performance, scalability, and a modern user interface.

Worked closely with product teams to align technical solutions with business goals and user needs.

Ensured a smooth user experience by resolving issues and optimizing UI components for all devices.

Frontend Developer - Careerontrack.ai | 09/2024 - 01/2025 - Canada

-Developed and optimized AI-powered interview chatbots to provide personalized user experiences.

-Built features for resume analysis and tailored career recommendations using modern frontend technologies.

-Improved application performance and responsiveness, enhancing the user journey across platforms.

- Collaborated with backend teams to ensure seamless integration of AI models and user interfaces.

Fullstack Developer - CartAgro | 06/2024 - 11/2024 - Lagos

- Spearhead the development of scalable web applications using React, Next.js, Django and the MERN stack.

- Implement complex features on the frontend and backend, enhancing user experience and application performance.

- Collaborate with cross-functional teams to deliver high-quality software solutions that align with business objectives.
